Â We will shortly circulate the details of outcome of the campaign once we receive full report from our units. Â **As we decided that the Campaign is "ongoing basis", we should try to encash the potential in our comrades and tap the interest shown by them. We are known for making "impossible" a "possible" one. We tested ourselves through this campaign and we have understood our capabilities. In fact we have set a new trend. We have gained new confidence. We have proved ourselves. We can further make our flag high. Go ahead. No let up in our efforts.Â Â No let up in the enthusiasm generated already through the campaign. Move forward. Â Words are not adequate enough to convey our appreciation to our Units and our members. Salutes to them. Â** Now those units which were left out are to identify centers in their respective units and start preparation for launching the campaign so that the Sense of Pride be with everyone. Those units which are already in the campaign: spread it to those centers which are yet to be covered. Let all branches feel the vibration and let the campaign make a BIG DIFFERENCE in numbers in the Balance Sheet of our Bank. We shall shortly come out with more programmes after discussing with our Functionaries. Â **Once again SPIRITED CONGRATULATIONS**
