
Our support to the struggle of the farmers and their demand for repeal of the anti-farmer legislation

23/12/2020 13:44 by admin

Â We have already expressed our support to the struggle of the farmers and their demand Â for repeal of the anti-farmer legislations. We have also observed programme like badge- wearing, placard display, participation in demonstrations, etc. We also extended our Â support to their All India Bandh programme on 8th December, 2020. The farmers are waging a determined struggle but unfortunately the Government is still negative to their demands. Hence the struggle of the farmers is continuing. Various sections of the people are extending their support. Various organisations are also extending their support. AIBEA also participated in the Janatha Parliament programme and expressed our solidarity with their cause and demands. Now the farmers have started Relay Hunger Strike programme. It is an irony and tragedy that the farmers and kisans who are producing food for all of us so that we do not face hunger are now made to go on hunger strike. It is time to continue our support and express our further solidarity. Hence we call upon all our unions and members to express their solidarity by observing the following programme:

We appeal to all our members to express their oneness with the struggle of our farmers by implementing the programme enthusiastically.
