Notwithstanding the numerous challenges and extremely tough business environment, UCOites have done everything in their might to keep up the momentum and continued to remain profitable. Let us look at highlights of our performance during Q4 and Full Year 2020-21. 1. Operating Profit for the quarter March 2021 stood at Rs 1532.53 Crore as against Rs 1216.60 Crore for the quarter ended March 2020 registering a growth of 25.97%. Net Interest Income for the quarter ended March 2021 has increased to Rs 1412.61 Crore from Rs 1254.51 Crore for the quarter ended March 2020 registering a growth of 12.60%. This is the highest Net Interest Income in previous 22 quarters. 3. Bank registered highest Other Income for the quarter as well as for the financial year. 4. Net Profit of Rs 167.03 Crore during the year ended March 2021 as against Net Loss of Rs 2436.83 Crore during the year ended March 2020. Bank registered Net Profit in Financial Year 2020-21 after continuous loss in previous 5 financial years. 5. Total Advances of the Bank stands at Rs 118404.81 Crore as on 31.03.2021 as against Rs 114961.44 Crore as on 31.03.2020 registering a growth of 3.00%. 6. Gross NPA has reduced to Rs 11351.97 Crore (9.59%) as on 31.03.2021 from Rs 19281.95 Crore (16.77%) as on 31.03.2020 and from Rs 11440.47 Crore (9.80%) as on 31.12.2020. 7. Capital Adequacy Ratio stood at 13.74% and CET-I Ratio at 11.14% as on 31.03.2021. During 2020-21, we performed well on metrics like Retail & Savings growth, Treasury Operations and corporate advances and I am particularly pleased that we operated profitably despite the unsettling times. In spite of these accomplishments, this is certainly not a time to unwind and slow down. Low growth under MSME & Agriculture advances, CASA, Non-fund based Income & Digital Adoption continue to restrict growth and remain as pain points which need course correction. In 2020-21, compared to previous years, recovery was lower than expected implying the need to step up our efforts to improve recovery in the current financial year. In addition to NPAs, our stressed assets are currently at a high level and if these concerns are not addressed promptly, they can destabilize our growth plans and can invite adverse observations from our stakeholders. In 2021-22, Banking system will continue to play a vital role in reconstruction of economy through credit deployment. UCO Bank will have a focused approach for an inclusive growth along with reduction in stressed assets. We have a lot of work ahead of us. But I am excited about the opportunities that lay ahead owing to our stable fundamentals and the strength we possess to overcome challenges. I congratulate every UCOite for being eligible to 10 days of Performance linked incentive as our Operating profit grew by 12.10% over previous financial year. I once again congratulate UCOites for this historical result demonstrating a complete turnaround of the Bank.
